

Smart Driver Professional Development Workshop

Fleet Smart Program for Fuel Efficiency

Train the Trainer Program

The Smart Driver for Program is a one day training program to increase awareness of and deliver skills related to fuel efficiency. The workshop covers an introduction to Fleet Smart and the four modules of fuel efficiency that includes:

- Factors that affect fuel efficiency
- Vehicle care and inspections
- Driving practices and recommendations
- Defensive driving for fuel efficiency using the Smart Driver Instructor's Guide, Video and card game from Fleet Smart Office of Energy Efficiency, Natural Resources Canada.
